Problem-Solution Text Structure Map

This is a graphic organizer to help you display and organize important features from a text that is about a problem and a solution. A writer uses a **problem-solution** text structure when writing this type of piece.

Fill out each section using information from the text to map the important elements.

Problem (Be brief and use your own words!):	Significance of the problem (Why is the problem important? How is it causing harm? In other words, why do we care about the problem?)
Solution(s) for problem (How can this problem be fixed of helped?):	**Rationale for solutions** (How does the solution work? Why will it be effective?):
1.	
2.
