

# Cause and Effect Graphic Organizer

This graphic organizer can be used for recording cause and effect relationships in a passage. It can be used to help students understand the direct relationship between events in a passage. Students can write or draw pictures of events in the boxes to record which event is the cause and which is the effect.

## Additional Resource

For more on cause and effect, read the Iowa Reading Research Center blog post [“Effective Literacy Lesson: Teaching Identification of Cause and Effect Relationships in Texts”](#) by Dr. Anna Gibbs.
