

# Family Questionnaire for Individualized Education Program

An Individualized Education Program (IEP) is a written document that describes an educational plan that meets the needs of a student with a disability. This questionnaire is intended to help families of students with disabilities prepare for IEP meetings by outlining information about their children's educational experiences, strengths, and needs.

## Additional Resources

For more information on preparing for IEP meetings, read the Iowa Reading Research Center blog post [“Family Preparation for an Individualized Education Program Meeting”](#) by Anna Gibbs, Ph.D.
